Dr. Stanley Coren's new book **THE MODERN DOG**: A Joyful Exploration of How We Live with Dogs Today explores just how dogs have become such an ingrained and irreplaceable part of our lives. The most consistently popular author of dog books ever, including books such as the NYT bestselling *The Intelligence of Dogs*, and *Why We Love the Dogs We Do*, Coren chronicles the various aspects of how we interact with dogs, how society responds to dogs, how our relationships with dogs have changed over history, and where dogs fit into our personal and emotional lives. Ideal for anyone who owns a dog, loves a dog, or is interested in the history of dogs and how they fit into our society, *THE MODERN DOG* explores how science, folklore, technology, religious writing, politics, and history have influenced and shaped the dogs we know and love today. Stanley Coren, Ph.D., is a professor of psychology at the University of British Columbia and a recognized expert on dog-human interaction.

Price: \$26.00: The MODERN DOG is available for purchase at Amazon.com, Borders, B&N and wherever books are sold.
